

Development of robust pipelines with Anaconda environments and Bioconda

Ideas for better pipelines:

- Reproducibility:
- Portability:
- Efficient use of multiprocessing (+ avoid repeating completed steps):

Development of robust pipelines with Anaconda environments and Bioconda

Ideas for better pipelines:

- **Reproducibility:**
all steps scripted and tracked by **Git**
- **Portability:**
all modules, programs contained within **Conda environments**
- **Efficient use of multiprocessing** (+ avoid repeating completed steps):
ideas borrowed from GNU Make: **snakemake**
